

# Blue Wattle Leaf

## Nutrients

**Quercetin**  
- Flavonol

**Catechin**  
- Flavan-3-ol

**Myricetin**  
- Flavone Glycoside

**Epigallocatechin**  
- Polyphenol

**Procyanidin**  
- Flavonoid

**Flavone Glycosides**

**Flavanol**  
- Gallo catechin

**Flavanol**  
- Epicatechin

**Flavan-3-ol**  
- Fisetinidol

## Nutrient Features

Helps in the protection of the skin from Dermatitis and photo-sensitivity.

Anti-inflammatory and lowers inflammation.

Potent anti-oxidant.

Protects against oxidative stress induced cell death.

Protects from heat shocked skin damage.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Rehydration and plumping of skin.

Protection of hair follicle from sun and pollution damage.

Provides substantial protection from UV radiation.

Alleviates aging induced oxidative stress.

Protects skin from hypoxic environments.

Tyrosinase activity.

Anti-nociceptive (inhibits sensation of pain).

Neo-collagenesis - Stimulates growth of collagen in the skin.

Anti-acne activity.

Reduces membrane lipid peroxidation and DNA damage.

Improves mitochondrial functionality - promotes regenerative capacity of skin cells.

Protects fibroblasts (new skin cell growth) from environmental damage.

Strengthens capillaries.

Anti-pollution activity.

Photoprotective activity.

## Benefits

Creates a barrier protecting the skin from environmental damage and pollution.

Reduces skin redness, irritation and clears pore blockages.

Helps skin recover from over exposure to sun. Helps in the relief of sunburn.

Protection from damaging free radicals.

Potent active for the prevention of skin aging.

Anti-aging and thermal skin aging active.

Reduces visibility of sun spots.

Dark circle and puffiness reduction under the eye.

Skin whitening.

Reduces appearance of fine lines and wrinkles.

Makes skin glow, lumosity.

Maintains health of hair and protects the follicle from external damage.

More effective as an anti-oxidant than vitamin C and E together (Catechin - Flavan-3-ol).

Helps skin hydration.

Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.

Maintains health of skin in controlled environments such as air conditioning and plane travel.

Prevents damage from environmental pollution.

Suppleness of skin. Increases skin elasticity and reduces potential of stretch marks.

Reduces potential of early aging and onset of fine lines and wrinkles.

Helps repair connective tissue damage (stretch marks).
