

Acacia Celastrifolia Leaf

Nutrients

**Procyanidin
- Flavanoid**

Flavone Glycosides

Phenolic Acids

Flavanol derivatives

**Triterpene
Glycoside**

Nutrient Features

Reduces membrane liquid peroxidation and DNA damage.

Improves mitochondrial functionality - promotes regenerative capacity of skin cells. Improve collagen production.

Provides substantial protection from UV radiation.

Protects fibroblasts (new skin cells) from environmental damage.

Significant anti-oxidant activity.

Anti-inflammatory activity.

Neo-collagenesis activity.

Strengthens capillaries.

Alleviates aging induced oxidative stress.

Rehydration and plumping of skin.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Thermal skin aging.

Repairs hair.

Benefits

Potent active for prevention of skin aging.

Reduces potential of early aging and onset of fine lines and wrinkles.

Helps restore damaged skin from over exposure to sun and pollution.

Helps to repair connective tissue damage (stretch marks).

Helps skin hydration.

Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.

Makes skin glow, lumosity.

Protection from damaging free radicals.

Reduces skin redness and irritation.

Stimulates the growth of collagen.

Reduces dark circles and puffiness under the eye.

Reduces visibility of sun spots.

Skin whitening.

Potent active in the treatment of heat shock induced skin aging.

Promotes growth of healthy hair.
