

Acacia Microboytra Leaf

Nutrients

**Procyanidin
- Flavanoid**

Flavanol derivatives

Nutrient Features

- Reduces membrane lipid peroxidation and DNA damage.
- Improved mitochondrial functionality - promotes regenerative capacity of skin cells. Improves collagen production.
- Provides substantial protection from UV radiation.
- Protects fibroblasts (new skin cells) from environmental damage.
- Anti-oxidant.
- Thermal skin aging.
- Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.
- Repairs hair.

Benefits

- Potent anti-aging active.
- Reduces potential of early aging and onset of fine lines and wrinkles.
- Helps restore damaged skin from over-exposure to sun and pollution.
- Helps to repair connective tissue damage (stretch marks).
- Helps skin hydration.
- Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.
- Gives skin glowing effect, lumosity.
- Potent active in the treatment of heat shock induced skin aging.
- Reduces visibility of sun spots.
- Dark circle reduction under the eye.
- Skin whitening.
- Promotes growth of healthy hair.
