

Banksia

Nutrients

Ellagic Acid
- Phenolic Acid

Tryptophan
- Alpha Amino Acid

Rutin
- Flavone Glycoside

Isohamnetin
- Flavone Glycoside

Adenosine
- Nucleotide

Amino Acids

Phenolic Acids

Organic Acids

Terpenoid
- Loliolide

Nutrient Features

Potent active for the treatment strategies interrupting skin wrinkle and inflammation.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Reduces membrane liquid peroxidation and DNA damage.

Anti-aging activity.

Anti-acne activity.

Hair protectant and natural hair conditioner.

Smoothness and moisturising.

Photo-protection activity.

Active against hair loss.

Conditioning agent.

Anti-inflammatory activity.

Tyrosinase activity.

Potent free radical scavenging activity.

Promotes growth of healthy, strong hair.

Significant anti-oxidant activity.

Alleviates aging induced oxidative stress.

Rehydration and plumping of skin.

Benefits

Helps in the treatment of chronic UV exposure (sunburn). Helps skin recover from over exposure to sun.

Reduces potential of photoaging.

Reduces visibility of sun spots.

Dark circle reduction under the eye.

Potent skin whitening.

Reduces potential of early aging and onset of fine lines and wrinkles.

Helps in the protection of the skin from damaging environmental factors.

Protects hair from UV damage.
