

# Bush Banana Fruit

## Nutrients

**Tryptophan**  
- Alpha Amino Acid

**Chlorogenic Acid**  
- Phenolic Acid

**Amino Acids**

**Flavone Glycosides**

**Phenolic Acids**

**Organic Acids**

**Terpenoid**  
- Loliolide

## Nutrient Features

Anti-aging activity.

Hair protectant and natural hair conditioner.

Photo-protection activity.

Anti-acne activity.

Significant anti-oxidant activity.

Provides substantial protection from UV radiation.

Anti-Glycation\* activity.

Conditioning agent.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Anti-inflammatory activity.

Significant anti-oxidant activity.

Reduces membrane liquid peroxidation and DNA damage.

Neo-collagenesis activity.

Strengthens capillaries.

Alleviates aging induced oxidative stress.

Rehydration and plumping of skin.

\* Glycation is when sugar molecules are present, they grasp onto fats and proteins in a process known as glycation, forming advanced glycation end products, which cause protein fibres, or collagen, to become stiff and malformed.

## Benefits

Helps in the protection of the skin from damaging environmental damage and pollution.

Protects hair from UV damage.

Anti-static agent providing conditioning benefits for the hair.

Adds feel of smoothness to the skin and hair.

Reverses the UV damage in hair follicles.

Reduces skin redness and irritation and clears pore blockages.

Protection from damaging free radicals.

Helps skin hydration.

Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.

Reverses the appearance of dimples and cellulite.

Potent skin and hair conditioning active.

Reduces visibility of sun spots.

Dark circle and puffiness reduction under the eye.

Skin whitening.
