

Macadamia Leaf

Nutrients

**Catechin
- Flavan-3-ol**

**Epigallocatechin
- Polyphenol**

**Procyanidin
- Flavonoid**

Flavone Glycosides

Phenolic Acids

**Benzoic Acid
derivatives**

Nutrient Features

- Protects against oxidative stress induced cell death.
- Protects against heat shocked skin damage.
- Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.
- Rehydration and plumping of the skin.
- Protection of hair follicle from sun and pollution damage.
- Potent anti-oxidant.
- Provides substantial protection from UV radiation.
- Neo-collagenesis activity.
- Anti-acne activity.
- Reduces membrane lipid peroxidation and DNA damage.
- Improves mitochondrial functionality - promotes regenerative capacity of skin cells. Improves collagen production.
- Protects fibroblasts (new skin cells) from environmental damage.
- Anti-inflammatory activity.
- Strengthens capillaries.
- Alleviates aging induced oxidative stress.

Benefits

- Potent active for the prevention of skin aging.
- Anti-aging and thermal skin aging active.
- Reduces visibility of sun spots.
- Dark circle and puffiness reduction under the eye.
- Skin whitening.
- Reduces the appearance of fine lines and wrinkles.
- Makes skin glow, lumosity.
- Maintains health of hair and protects the hair follicle from external damage.
- More effective than as an anti-oxidant than vitamin C and E together (Catechin-Flavan-3-ol).
- Helps skin hydration.
- Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.
- Suppleness of the skin.
- Increased skin elasticity. Reduces the potential of stretch marks.
- Reduces skin redness and irritation and clears pore blockages.
- Reduces potential of early aging and onset of fine lines and wrinkles.
- Helps restore damaged skin from over exposure to sun and pollution.
- Helps repair connective tissue damage (stretch marks).
- Makes skin glow, lumosity.
- Protection from damaging free radicals.
- Stimulates growth of collagen reducing fine lines and wrinkles.
- Reduces epidermal hyperproliferation.
- Wound healing.
