

Native Coconut Husk

Nutrients

**Catechin
- Flavan-3-ol**

**Procyanidin
- Flavonoid**

Amino Acids

Phenolic Acids

**Flavanol/Flavonoid
derivatives**

**Flavanol
- Epicatechin**

**Flavan-3-ol
- Fisetinidol**

Nutrient Features

Protects against oxidative stress induced cell death.

Protects against heat shocked skin damage.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Rehydration and plumping of skin.

Protection of hair follicle from sun and pollution damage.

Potent anti-oxidant.

Provides substantial protection from UV radiation.

Reduces membrane lipid peroxidation and DNA damage.

Improves mitochondrial functionality - promotes regenerative capacity of skin cells.

Protects fibroblasts (new skin cell growth) from environmental damage.

Conditioning agent.

Anti-inflammatory activity.

Alleviates aging induced oxidative stress.

Thermal skin aging.

Repairs hair.

Anti-pollution activity.

Photoprotective activity.

Benefits

Potent active for prevention of skin aging.

Anti-aging and thermal skin aging active.

Reduces visibility of sun spots.

Dark circle reduction under the eye.

Skin whitening.

Reduces appearance of fine lines and wrinkles.

Makes skin glow, lumosity.

Maintains health of hair and protects the follicle from external damage.

More effective as an anti-oxidant than vitamin C and E together (catechin - Flavan-3-ol).

Helps skin hydration.

Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.

Reduces potential of early aging and onset of fine lines and wrinkles.

Helps restore damaged skin from over exposure to sun and pollution.

Helps repair connective tissue damage (stretch marks).

Potent skin and hair conditioning active.

Reduces skin redness and irritation.

Protection from damaging free radicals.

Potent active in treatment of heat shock induced skin aging.

Promotes growth of healthy hair.
