

Native Ginger Root

Nutrients

**Epigallocatechin
- Polyphenol**

**Procyanidin
- Flavonoid**

Phenolic Acids

Organic Acids

Flavanol derivatives

Nutrient Features

Neo-collagenesis activity.

Anti-acne activity.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Reduces membrane liquid peroxidation and DNA damage.

Provides substantial protection from UV radiation.

Protects fibroblasts (new skin cells) from environmental damage.

Alleviates aging induced oxidative stress.

Anti-inflammatory activity.

Significant anti-oxidant activity.

Rehydration and plumping of skin.

Reduces membrane liquid peroxidation and DNA damage.

Thermal skin aging.

Repairs hair.

Benefits

Suppleness of the skin.

Reduction of fine lines and wrinkles.

Increased skin elasticity. Reduces the potential of stretch marks.

Potent anti-aging active.

Reduces skin redness and irritation and clears pore blockages.

Reduces visibility of sun spots.

Dark circle reduction under the eye.

Skin whitening.

Reduces potential of early aging and onset of fine lines and wrinkles.

Helps restore damaged skin from over exposure to sun and pollution.

Helps repair connective tissue damage (stretch marks).

Helps skin hydration.

Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.

Makes skin glow, lumosity.

Potent active for the prevention of skin aging.

Potent active in the treatment of heat shock induced skin aging.

Promotes growth of healthy hair.

Stimulates growth of collagen in the skin.
