

# Wattle Seed

## Nutrients

**Epigallocatechin  
- Polyphenol**

**Deoxy-Glucitol  
- Sugar Alcohol**

**Amino Acids**

**Amines**

**Flavone Glycosides**

**Phenolic Acids**

**Chalcone Glycoside  
- Phloretin**

## Nutrient Features

Neo-collagenesis activity.

Anti- acne activity.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Endothemic activity.

Humectant.

Anti-inflammatory activity.

Significant anti-oxidant activity.

Conditioning agent.

Anti-acne activity.

Reduces membrane liquid peroxidation and DNA damage.

Hair protectant and natural hair conditioner.

Strengthens capillaries.

Alleviates aging induced oxidative stress.

Rehydration and plumping of skin.

Anti-neoplastic agent.

## Benefits

Suppleness of the skin.

Increased skin elasticity. Reduces potential of stretch marks.

Anti-aging active.

Reduces skin redness and irritation and clears pore blockages.

Reduces visibility of sun spots.

Dark circle and puffiness reduction under the eye.

Skin whitening.

Creates cooling sensation on the skin (after sun products).

Prevents moisture loss from the skin.

Increases skin hydration.

Protection from damaging free radicals.

Potent skin and hair conditioning active.

Reduces potential of early aging and onset of fine lines and wrinkles.

Protects hair from UV damage.

Anti-static agent providing conditioning benefits for the hair.

Adds feel of smoothness to the skin and hair.

Builds protein hydrolysate moisture in the skin and hair.

Stimulates the growth of collagen reducing fine lines and wrinkles.

Reduces appearance of fine lines and wrinkles.

Makes skin glow, lumosity.

Inhibits or halts the development of neoplasm.
