Features

Potent active for the treatment strategies interrupting skin wrinkle and inflammation.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin colour.

Reduces membrane liquid preoxidation and DNA damage.

Protects against oxidative stress induced cell death.

Protects against heat shocked skin damage.

Inhibition of melanogenesis - reduces coloured pigmentation allowing even skin tone.

Rehydration and plumping of skin

Protection of hair follicle from sun and pollution damage.

Potent antioxidant.

Provides substantial protection from UV radiation.

Significant antioxidant activity.

Neo-collagenesis - stimulates the growth of collagen in the skin.

Anti-acne activity.

Alleviates aging induced oxidative stress.

Anti-inflammatory activity.

Hair protectant

Promotes smoothness of skin and hair.

Builds protein hydrolysate moisture in skin and hair.

Photo-protection - helps combat damaging UV light from the sun.

Benefits

Helps treatment of chronic UV exposure (sunburn).

Reduces the potential of photoageing.

Reduces visibility of sun spots.

Dark circle reduction under the eye.

Skin whitening.

Potent anti-aging actives.

Reduces the appearance of fine lines and wrinkles.

Maintains the health of hair and protects hair follicle from external damage.

Anti-aging and thermal skin aging actives.

Aids cutaneous metabolism to prevent skin alterations (sun spots/age spots/skin blemishes) and early aging.

Helps skin hydration.

Protection from damaging free radicals.

Increased skin elasticity and potential reduction of stretch marks (pregnancy).

Reduces redness, irritation and clears pore blockages.

Protection from damaging free radicals.

Potent skin and hair conditioning active.
